Imphal East, Manipur, 795010, India | 7005054713

Dedicated team player striving proficiency while enforcing quality production. Receptive to new ideas and open ears to peers and subordinates, effectively utilizing available resources to fulfill commitments. Competent and success driven, challenging conventional practices seeking creative and cost effective solutions.

Work Experience

Associate Consultant
Oct 2023 - Present

Maventic Innovative Solutions Pvt Ltd | Bengaluru, Karnataka, India

Acquired extensive knowledge in translating business requirements to technical procedures, by working side by side with experienced consultants. My primary role as an Associate consultant, focused on developing custom solutions that are both innovative and cost-effective.

- Successfully delivered multiple SAP implementation and support projects, ensuring high client satisfaction.
- Specialized in building custom ABAP solutions tailored to meet specific client requirements.
- Played a pivotal role in the development of "mFleet," an internal project, with a significant focus on frontend development.

SAP Developer
Oct 2022 - Oct 2023

Maventic Innovative Solutions Pvt Ltd | Bengaluru, Karnataka, India

Gained extensive knowledge and experience through various implementation, support, and enhancement projects for multiple clients. My primary contributions include building custom solutions that meet business requirements set by consultants. I am dedicated to delivering performant applications within deadlines, consistently meeting client expectations and achieving satisfactory results. My efforts have been recognized with the "Rising Star Award."

- Developed and delivered high-performance applications, ensuring adherence to deadlines.
- Successfully met client expectations, delivering satisfactory results.
- Awarded the "Rising Star Award" for outstanding performance.

Trainee Developer
Apr 2022 - Oct 2022

Maventic Innovative Solutions Pvt Ltd | Bengaluru, Karnataka, India

Immersed myself in the fundamentals of building SAP applications using ABAP. I gained valuable knowledge on various SAP development tools, software, and services. My role involved contributing as a shadow developer, assisting senior developers in delivering successful applications.

- Acquired essential skills in SAP application development using ABAP.
- Gained hands-on experience with SAP development tools and services.
- Contributed as a shadow developer, supporting the delivery of successful applications.

Projects

Dropify | File Sharing Web App
Present

A NextJS application built to help share files across the web, built in with a hassle free authentication process, and automated alert mailing functionality, user friendly UIs, password enabled files, easy tracking of uploaded

and shared files. Built using NextJS, Tailwind, Clerk(authentication), Resend(mail services), HyperUI(UI Library).

GoChat

Present

A miniature version of a chat app, demonstrating web socket connections between frontend and backend, handling of multiple clients connections, reading a socket message and sending out incoming messages to all clients.
A comprehensive learning project using Go routines and channels.

Patients Appointment Management

Present

Open UI5 application developed especially for patients looking to book an appointment with a specialist at their preferred Hospital. Track upcoming and past appointments easily in one place.
